Re: Operations Department Update

\*\*\*\*\*

### **OVERVIEW OF PAST MONTH**

1. We had 3 lateral repairs this past month and no main breaks. The repairs were in Discovery, Silver Springs and in Silver Creek Village
2. The seasonals are working on hydrants and valves throughout the district. They are slowly coming to the end of their employment within the next few weeks.
3. Crews are doing tank checks in preparation for our upcoming state sanitary survey.
4. Summit Park well 2 was brushed and bailed and had its pump installed. We will work on getting it flushed and sampled. (See pic)
5. Old Ranch pump station upgrades are continuing. Waiting on the pressure tank to be delivered. Paving was completed at the site.
6. We are scheduled to have the Gulch well in the Canyons to be brushed and bailed. Hope to have it done soon.

### **FOCUS FOR NEXT MONTH:**

1. Pump repairs at the Colony and Lost Canyon.
2. Continue system checks to prepare for our sanitary survey.
3. Get Summit Park well 2 online and also the Gulch well.
4. Fence installation and paving at our Silver Creek site.
