

MEMORANDUM

To: Administrative Control Board

From: Steve Anderson, CFO

Date: February 11, 2025

Subject: MRW Semi-Annual Cash Report

MRW Administrative Policies require me to provide the Administrative Control Board with a semi-annual cash report. This report is for the period ending December 31, 2024. The District's cash position has decreased during 2024 due mainly to the expenditure of Series 2023 Bond proceeds for the construction of the new office and maintenance facility. The total cash balance is projected to drop over the next six months as the construction of the new administrative office and maintenance shop continues.

Financial Institutions

MRW uses three financial institutions with the following general ledger balances:

Total	\$3	4,799,378
Zions Bank, Corporate Trust Division (Invested with PTIF)	1	<u>16,185,185</u>
State Public Treasurers Investment Pool (PTIF)	1	18,030,682
Zions Bank	\$	583,511

Cash Categories

Total Cash & Operating Reserves

This includes the District's checking account, operating reserves, and capital repair and replacement reserves.

December 2021	12,831,876
December 2022	13,898,851
December 2023	11,651,177
December 2024	11,794,865

Unrestricted operating reserves are currently 291 days, compared to the minimum policy level of 120 days reserves; and as compared to 280 days reserves at this time last year.

As of December 2024, cash operating reserves of \$7.57 million, the Regionalization Reserve of \$669,164, and the Drought Reserve of \$875,445 accounted for 77.3% of the balance. The remaining balance of \$2.68 million is repair and replacement funds for Lost Canyon, the Signal Hill Treatment Plant, and other District operations.

Cash & Operating Reserves remained consistent from year to year with an increase of 1.03% (\$143,688) as the largest expenditures were from the 2023 Series funds as mentioned previously.

Debt Reserves Held by the District

Debt reserves remained very consistent from the end of 2023 to the end of 2024 with only a decrease of \$35,200 (.52%).

December 2021	\$ 7,125,484
December 2022	7,364,050
December 2023	6,788,104
December 2024	6,752,905

As of December 2024, impact fees of \$5.25 million and the Rate Stabilization fund of \$1.03 million accounted for \$6.28 million (93.0%) of the reserve balance.

The current balance provides funding to help with upcoming capital projects including the treatment plant expansion and the Highway 224 interconnect. These reserves could also be used to address an emergency, although certain amounts are restricted for use on specific bonds.

Debt Reserves Held by Trustee

This includes debt reserves and the bond fund balances from which debt payments are made and are mandated by bond agreements. If the debt reserves portion of these funds are drawn upon, they must be replaced within 12 months, or the District will be in default on its bonds. The balance required is higher at the end of 2024 as the reserve for the 2023 Series Bond is now included.

December 2021	\$ 569,422
December 2022	646,046
December 2023	753,036
December 2024	967,554

These reserves are currently at the level required by bond covenants.

Construction Cash

This includes bond and grant proceeds dedicated to capital projects. The balance varies depending upon bonds issued, grants received, and the progress of the related capital projects.

December 2021	\$ 293,779
December 2022	-
December 2023	17,985,369
December 2024	13,886,299

In November of 2023, the District issued \$18.0 million in revenue bonds sold directly to the Bank of Utah to fund the construction of the new office and maintenance facility. As of December 2024, payments totaling \$5.12 million have been made from this fund, and interest earned on the deposited funds has been \$1.01 million, leaving the remaining balance of \$13.89 million.

Other Cash

This includes two accounts: 1) customer deposits for new construction, and 2) performance deposits for developer infrastructure construction. The amount increased during 2024 due to additional cash deposits from developers in lieu of providing insurance bonds. The customer deposits have decreased from \$1.08 million at the end of 2023 to \$780,750 as many customers completed their construction. The performance deposits for new construction have increased from \$65,402 to \$617,006.

December 2021	\$ 1,069,404
December 2022	1,104,278
December 2023	1,144,648
December 2024	1,397,756
