Below is a table providing a more detailed breakdown of how revenue compares to budget.

Water Sales are over budget through November by \$976,380. This positive variance is due mainly to higher usage than budgeted due to the long and hot irrigation season. Culinary usage by District customers is 25.1% higher than last year.

Development Related Collections are below budget by \$77,112. The number of new connections requests and impact fees have slowed during the year, during November there were five new connections and \$13,811 in impact fees, both below budgeted amounts.

Other Revenue is better than budget due mainly to interest earnings being \$788,904 above budget. The interest rate being paid by the Public Treasurers' Investment Fund (PTIF) has dropped below 5% for the first time this year; it was 4.87% for November.

As seen below, total expenses through November are under budget by \$985,890. Operating expenses are under budget by \$981,665 with Operations, Maintenance & Repairs, Non-OM&R, and Depreciation all adding to the savings. The savings are coming from several areas with salaries and benfits, and repair expenses contributing significantly.
